

MEBAPRO 260 GP

stock roller machine motor side / specification		
stock roller- No.	manual	length (mm) (1000/ 2000/ 3000/ 4000mm)
RNM A1	Yes	
RNM A2	Yes	
RNM A3	Yes	
RNM A4	Yes	

electrical connection:
3x400V / N / PE / 50Hz
fuse protection: 16 A

stock rollers machine cover side / specification		
stock roller- No.	manual	length (mm) (1000/ 2000/ 3000/ 4000mm)
RNM Z1	Yes	
RNM Z2	Yes	
RNM Z3	Yes	
RNM Z4	Yes	

measuring device / optional			
measuring device Typ	length (mm)	lengthening piece (AV)	metering range (mm) without AV
measuring device "260 GP" manual (2m + 3m)			metering range (mm) with AV
ML0 manual			
MLD manual			
MLA automatic			

vertical rollers supply side	yes	no	quantity

measuring device / optional			
measuring device Typ	length (mm)	lengthening piece (AV)	metering range (mm) without AV
measuring device "260 GP" manual (2m + 3m)			metering range (mm) with AV
ML0 manual			
MLD manual			
MLA automatic			

view X

working height 750mm

At the installation location there has to be an at-grade base plate with a niveau tolerance of max. ±20mm. The base plate has to have a sufficient sturdiness for mounting dowels M12x120 and has to resist a pressure load of min. 30kg/cm². Because of the manufacturing tolerances, the drilling patterns for the fixing dowels can not be determined in advance, they must be drilled during installation!

Safety equipments for example: enclosures, barriers, etc., are not included in the offer.
Any equipment needed can be listed by MEBa in a separate offer

Please confirm electrical datas:

electrical connection (MEBA-standard):
3x400V / N / PE / 50Hz yes no

different electrical connection: _____
(auto-transformer might be required !!!)
